Welcome message from the host partner.

Brief introduction from Giovanni Conti about his research for the University of Lugano about Lugano's codes and the work of reconstruction of the codes , presenting slides relating to the number of codes and different jobs that are being conducted for reconstruction of the material.

The complete presentation of the project will take place in the next symposium which will take place in Riga.

The material will be sent to the project coordinator Federico Bardazzi for publication in the reserved area of the website dedicated .

Summary of upcoming meetings and confirmation with partner present regarding the number of participants and the accommodations depending on the needs expressed by the partner .

Confirmation of the dates already mentioned in the previous meetings of concerts planned for plannary sesion of Graz .

Lugano, after the audit by their National Agency, discusses the need for the compilation of a part of the final report together with all participants , as pointed out by the person who conducted the audit for the agency. The final report consists of two parts: one is the experience of each participant and the other in the evaluation of the project by all the members of the partnership .

The participants agree to discuss about this at the meeting in Riga, and in the meantime Lugano and the coordinator Federico Bardazzi , will seek for examples and fac simile of the final report to see how to do it and discuss in Riga about the compilation.

The meeting closes at 13:30pm
