The Project

The Project is supported by Erasmus + Program.

The Performance is very innovative thanks to the Virtual Stage concept by Carla Zanin developed in many EU Projects and Performances in Italy and abroad (recently in Kenya). Particularly the format includes videoscenographies, midi keyboards orchestra with sample sounds, partial playbacks of choirs, surrounding sound effect (amplification of singers with headset for open air venues, QR code of the detailed program with photos, backstages, links etc. for the audience.
